The New Coin.
The Philadelphia Ledger in noticing the new silver coin says:

Adams & Co. drew out \$250,000 for the New York, Philadelphia and Baltimore markets. It is the expectation of this enterprise to draw out forty or fifty thousand dollars daily for some weeks. At this rate the coin will soon be pretty well supplied, and we shall no longer hear complaints of a want of small silver change. As yet we believe nothing larger than quarters have been made. The machinery of the Mint we understand is taxed to its utmost capacity in the manufacture of this much needed coin.

The New York Tribune of the 28th remarks:

The new silver coin made its appearance in Wall street to day in large amounts and was universally admired. Bullion dealers charge the public 2½ cent. premium. One leading dealer has already disposed of all he received. The demand is very brisk at the premium. The Banks have bought largely in the streets at 1½ cent. premium, but after the first demand was supplied at this rate, a further demand was refused under 2. Small quantities have been sold at 3 cent. premium.

"I DIGEST." Such is the true meaning of the word "Digest," or of the two Greek words from which it is derived. This is the significant and appropriate title of the true *Digest*, *Fluid*, or *Cocture*, prepared by Dr. J. S. Houghton, of Philadelphia, from the fourth stomach of the ox, for the cure of indigestion and dyspepsia. It is the owner's remedy for an unhealthy stomach. No art of man can equal its curative powers. It renders good eating perfectly consistent with health. See the figure of the Ox in another part of this paper.
